Road Rally School

The Detroit Region SCCA's Road Rally School was held March 2, 1986 at the Botsford Inn. The School was followed by a short rally called the Road Rally School Rally. The results of this rally are given on the next page.

We had an excellent turn out of thirty cars for the rally, most of whom also attended the rally school. They must have listened well because there was only one car that got lost on the rally. Joe Andreini did a great job putting on the school, giving good advice and entertaining us with tales of being on time on a frozen lake. His advice showed what separates the experts from the mere experienced rally crew.

Although the rally was won by a class B team, Novices finished second, third and fourth! I wonder how well that B team would have fared if they had been given some extra points for their extra navigators? The highly competitive Novice class was decided by the timing points on the first leg! Classes A and C were decided at the start by virtue of one car per class. Proves there's more than one way to go home with a trophy!

There were two questions dropped from the scoring, because the rallymaster fell asleep at the PC and left out the word SMITH from both questions. The error was not discovered until after an initial cut at scoring. In the interest of getting results out, those two questions were dropped.

The next rally in the Region's championship will be held on April 12 if the roads get paved. Rallymaster Richard Nix laid out the rally when snow was on the ground. When the snow melted, it uncovered potholes, some of which are rumored to be large enough to swallow a Bronco II. Let's hope the road crews get out in time! To find out more about this rally, give Richard a call. The HOTLINE should have information on the status of this rally about two weeks ahead of time. Hope to see you there!
